

The Carson Daily Appeal

CARSON CITY:

Thursday, March 27, 1878.

THE First National Gold Bank of Stockton, Cal., has received its notes of issue and will begin business forthwith.

DULL times and no capital at Wallapi. Not an unusual complaint in some parts of the Great East.

JACK PERRY has left Hamilton to embark in the saloon business at Salt Lake. So the News says.

THE Eureka Sentinel of the 23d inst. mentions the arrival of John Wagner there on the day before—on his way to Schell Creek.

AMONGST THE MORMONS.—The *New Endowment* of March 22 mentions the presence in Salt Lake of ex-Governor Bladell and Assemblymen Elzy and Shoff.

AGASSIS is soon to rejoice in "another home company." At present it is only in a very select company of that city that the members affect the civilized weakness of home.

JUDGE BEATTY has returned to Hamilton and will soon commence a term of Court in which Bill Bethards will be tried, a second time, for murder. William is in a pretty bad scrape.

AND NOW the friends of Donovan, the murderer, whose life was saved by Governor Booth's commutation, are trying to get him pardoned. That accomplished, they should sue the jurors who tried him for defamation of character.

GEORGE KILGORE killed Conlin Smith on Monday at Burlington Hill, Nevada county, Cal., in a drunken brawl at the supper table. The two men were warm friends and brother Scotchmen. A dreadful misfortune to poor Kilgore.

A new locomotive for the narrow gauge railway between Pioche and Bullionville has been received at Pioche. The Record says it weighs with tender laden with water and wood seventeen tons, and is named Col. J. F. Carter.

Mrs. F. M. BATES, the actress, was presented, one night last week, at Pioche, with a diamond cluster ring. Judge Jim Hardy, who was out there on some law business, did the presentation speechifying and Madame Bates replied by Mister Bates, her proxy for the occasion.

SOME EFFORTS at smearing the friendly whitewash of non-action over the weak and unmanly lies uttered by Senator Patterson regarding his Credit Mobilier connections have been making in the Senate. Better draw the black mark of expunction about his disgraced name than to equivocate and temporize over the matter.

ADVISED thereto by Bismarck, the Government of Germany declines to recognize the Republic of Spain; and Austria and Russia will follow the example set by this haughty monarchist. The congratulatory resolutions passed by this government over the abolition by the Spanish government of slavery in Porto Rico are handsomely in contrast with this unfriendliness of old European governments.

THE Goodrich murder has been simmered down to this sort of a theory: Goodrich had seduced a young woman four years ago and had a child by her. Recently he had been making arrangements to marry another woman. Old flame found this out and made a fuss. Goodrich cooked up a mock marriage to pacify the seduced one. She found out the sham and put his seductive light out. If these are the facts, why not let the poor girl go? She did not do it right.

SOME sneaking fellows who found their way into a membership of the Forty-Second Congress and who, knowing that the increase of salary clause of the Appropriation bill would pass notwithstanding their feeble and insincere opposition, and who wanted to make capital for themselves in New Hampshire, where they lived, made a terrific splutter over the extravagance of the Republican majority and so got re-elected. Being securely in office for the next two years they have, since the election, sent on to Washington and drawn their \$5,000, each, of back pay. Of such is the conglomerate of which the Possum-Democratic-Liberal-Republican head-cheese is made.

THE Democratic and so-called "Independent" press are furiously indignant over the arrest, by order of Admiral Selfridge, of that alleged swindler, Bohemian Bogart. A sudden howl arises from the moral depths from which comes the periodical gush of "reform," and the Government is denounced without stint for having dared to "kidnap" an attaché of a sensation newspaper and hold him subject to the rules and articles of war which govern the service to which Bogart was attached when the alleged embezzlement was perpetrated. (The theory is, we suppose, that the crime with which he is charged having been perpetrated in violation of a law governing the Navy, he is now, as he then was subject to the customs and penalties of Marine Court-martial.) The fact is, the press who have raised all this howl over this fellow's arrest have never ceased to abuse the President and all departments of the Administration whenever any sort of mercy or leniency has been shown toward Government defaulters; and no matter what the extenuating circumstances might be, if a pardon or a commutation of sentence has succeeded conviction, the Administration has forthwith been pilloried by the very class of newspapers that are making all this pother over Bogart's summary arrest. If he is a swindler what occasion is there for all this froth and noise over his arrest? What difference does it make how a confidence man is taken into custody, so long as he is secured for the purposes of justice? A few days residence at Mare Island won't hurt Bogart even if he is innocent. Already he has been sufficiently advertised to make him a fortune—if notoriety is worth anything.

PROFESSOR WHITEHILL AGAIN.—The Carson Appeal seems to think we were hard in our remarks relating to the learned gentleman who made the report of White Pine District. We only disagree with the editor of that paper on one point, and that is, we did not half-express the opinion of our people in the article referred to. Should reasons occur, we are prepared to make some developments regarding this gentleman and his report on this district which are not calculated to give credence to his assertions. —*White Pine News*.

THIS is quite as bad, if not worse, than an explicit charge. Unburden your budget of grievances and let's know the dreadful things the State Mineralogist has been doing. Out with it!

THEY have successfully weathered their money scare in Salt Lake and the bank directors there wear their accustomed reassuring smiles. Greenbacks by the bale have been coming in since the run subsided.

MR. JAMES F. CASEY has been confirmed by the Senate as Collector of the Port of New Orleans. President Grant is neither disposed to throw overboard an efficient officer or let his enemies select his appointees.

THE roof of the new Mint in San Francisco is of iron, covered with copper. No combustible material of any sort is employed in the construction of the building and it is claimed to be wholly fire proof.

HAMILTON is pleasantly excited over the railroad prospects made bright by Governor Bradley's signing the Elko and Hamilton Bill.

LAND grabbers will be interested in the following bit of information from the Pioche Record of the 20th inst.:

The State selections of land in southwestern Nevada are said to have been irregularly made. If it is in the matter not remedied, all those lands will be open to homestead entry as soon as the approved plats are filed in the District Land Office—which will be about the first of next June. The sooner they are open for permanent location the better, as hundreds of Lincoln county settlers are waiting to take the preliminary steps towards obtaining title.

OF the recent killing, at Mineral Hill of Kelly by Denver, the White Pine News says:

The circumstances, as far as we can ascertain them are as follows: William Denver, a blacksmith, well known in Hamilton and throughout the State as a quiet man generally, became involved in a difficulty with Kelly some time ago, and afterwards met together in Denver's saloon. Denver, on meeting Kelly, invited him to take a drink and forget old differences, and the two went to the bar, poured out their liquor, when Kelly turned around and drew his revolver, pointing it at Denver's breast, at the same time making the remark, "I will kill you now, you are a son of a b—." After the revolver had been leveled upon him, as our informant states, Denver with a quick movement seized the revolver, threw down the upraised arm of his assailant, and shot him with a deringer which he had concealed in his coat pocket, the ball taking effect in the left breast. After being shot Kelly ran out the door of the saloon, then turned and passed through to the back room, where a man named Russell was seated, to whom he addressed himself nearly in these words: "It is all your fault, d— you." He was then taken from the place and died a few moments after. Kelly was said to be a desperately dangerous man, and, from our conversation with numbers of leading citizens, we are induced to believe that Denver is a quiet inoffensive person, but one disposed to protect himself if when occasion requires him so to do. We expect additional particulars of this affair, and will publish them should they arrive before we go to press.

LATEST TELEGRAMS.

HALIFAX, N. S., March 26.—The small-pox is rapidly spreading in Halifax. Several deaths occurred yesterday. The hospitals are all full. New York, March 26. Among the police authorities the belief is strengthened that Goodrich was murdered by a woman. One woman, supposed to be connected with the case, is proved to be a respectable girl, whose relation to deceased was only that of employee, and there was nothing wrong whatever between them. No clue has been had of the other woman who had been with Goodrich three or four months before the murder, but now no one seems able to account for her even giving the name of the man in company with Goodrich on the night of the murder. He has not been heard of since the night after. It is suspected that this man and missing woman are together, and that both have gone to Europe.

Antonio Zamora, a distinguished Cuban patriot, has arrived here. He reports the insurgents as having an abundance of arms and in good spirits. They are making steady progress in the Eastern Department and will very soon compel the Spaniards wholly to withdraw therefrom. Special dispatches from London say the Lincoln handicap, the first of importance in the Spring races, was won yesterday by Westminster, beating Drumstick and Lydon.

At a meeting of the United Order of America, Carpenters and Joiners, last night, a general impression prevailed that employers would not undertake to enforce the ten-hour system. Various trades' organizations will soon have conference on strikes, and it may be two weeks before anything definite is known. The masons meet to-night to consider what ought to be done in reference to the introduction of men from other States.

A Washington special says the conduct of the Collector at Albany, in allowing the Central Company to buy engines recently auctioned off for taxes, was a surprise to the internal revenue bureau, as the Collector should not have sold them for a small sum. He is now ordered to detain the passenger depot at Albany, and if the company do not make a fair bid to turning property over to the credit of the United States. The Brooklyn carpenters at a meeting held last night decided to strike on the 7th of April if their wages were not raised from \$4 to \$4.50 for eight hours per day.

It is stated that proceedings are to be taken against Ben. Holladay, President of the Oregon and California Railroad, for an alleged fraud similar in operation to that of the Memphis and El Paso Railroad in Paris.

SAN FRANCISCO, March 26.—I. P. M.—The habeas corpus case of E. D. Bogart is set for 2 p. m. to-day, before Judge Sawyer. Great interest is felt in the result of the application for his release.

The trial of ex-Supervisor Kelly for assault with intent to murder Shay will be concluded in the Municipal Court to-day. The defense opened this morning. Gold, 115½@116½, greenbacks, 87@87½. **SAN FRANCISCO, March 26.**—3 p. m.—Ah Sing, tried in the Fourth District Court for the murder of Sam Quin, was found guilty of murder in the second degree.

Mrs. Martin Poole, who was arrested last night for stealing a large quantity of jewelry from Mrs. Nellie Bacon, was examined before the Police Court to-day. Mrs. Bacon testified that the prisoner had been at her house since November last, and was engaged as housekeeper, but really treated like one of the family. The jewelry stolen was worth over a thousand dollars. When Mrs. Bacon suspected her of the theft, she charged her with it, and told her if she would restore the property she would not prosecute her. Mrs. Poole declined, saying she did not know where it was. Mrs. Bacon then suggested the mesmeric operation. Mrs. Poole consented, and as she lay in bed Mrs. Bacon, who is no mesmerizer, made passes over her. She seemed to go to sleep, and then told where the jewelry was. Three trials were necessary, and at last the prisoner, with her eyes shut, but led by Mrs. Bacon, went to the spot designated and dug up the jewelry. Mrs. Poole on the witness stand reiterated her story about the two robbers. At the conclusion of her statement, Judge Lunderback said it was a most wonderful case, that the prisoner seemed to tell a frank and truthful story, and he continued the case, to give her an opportunity to procure witnesses.

THERE has been an insufficient degree of heart shaking hands across the bloody chasm in the case of Goldthwaite Gordon, Merrimon and other Southern Senators, we fear, judging from the report of Senate proceedings in the Clayton case—Clayton has been the loyal Governor of Arkansas. He has just been seated in the Senate. Charges against the means used in securing his election have been made and something in the inquisitorial way has been going on. When it came to a vote, Norwood and Gordon slimly reconstructed rebels from Georgia; Goldthwaite of Alabama; Merrimon, a North Carolina Democrat; Cooper a Tennessee Secesh; and Davis a Copperhead from West Virginia, were the only Senators who signified themselves by voting "no" upon a motion declaring the charges against Clayton not sustained. We specimens of human nature are apt to be unconsciously lying when we promise to let bygones be bygones; and so it is that all the real, ungovernable, unreasoning venom shown toward Governor Clayton comes from these indubitable rebels. They may recognize a larger right for the Yankee to live and trade and speak his sentiments concerning slavery and the neutrality laws than they used to acknowledge in the good old days before the bluebellies of the North showed their aptitude in learning to shoot the blue-blooded high cock-dorums of the South, but they can not, will not, don't want to and don't mean to have any bowels of mercy for any Southern Unionist. That is a very evident and offensive fact.

A SINGULAR MONSTROSITY.—We saw during the week a curious and singular monstrosity in the shape of four kittens, which were born all fastened or grown together. The connecting link consisted of an outgrowing from each of the animals, which held them together in the middle. When born they were healthy, and would probably have lived to adorn the museum of some showman, had not the lady of the house ended their career by drowning. —*White Pine News*.

PRIVATE SCHOOL!
Mrs. Talcott
WILL TUESDAY, APRIL FIRST,
open a Private School for little people.
Also Pupils in Music Received.
For particulars call at No. 73 Proctor street, Carson City. mh27-4f
